

# How to Sign Up

The use of a Parent Observer account in Canvas will enable parents to access materials, announcements, assignments, and receive notifications when something is posted to Canvas. With the parent observer account, you can choose to received notifications pushed to you via text, email, or Twitter. Also, with one parent account, you can be linked to multiple children across multiple schools. This gives you a single location to collect and view information posted. When you create a parent account, you will need to know your child's email address and 6-digit student ID number. You can find this information in the Infinite Campus Parent Portal. Once an account is created with one child, others may be added later.
